Council Date:

July 22, 2019

WHEREAS at the Committee of the Whole on July 22, 2019, Council considered a Memo from the Director of Public Works, regarding the Asset Management Policy;

NOW THEREFORE BE IT RESOLVED THAT Council approve the Town of Cobourg Asset Management Policy

CORPORATION OF THE TOWN OF COBOURG

Division: All Divisions

Effective Date: July 22, 2019

Department: All Departments

Approval Level: Council

Policy Title: Asset Management Policy

Section #
Policy #

4 – 2
PW-OPS19

Purpose

The Corporation of the Town of Cobourg is committed to providing quality and accessible services that supports a vibrant inclusive community in a fiscally sustainable manner. The purpose of this policy is to establish consistent standards and guidelines for the management of the Town's assets by applying sound technical, social, and economic principles that consider present and future needs of users and the service expected from the assets.

Asset management is an integrated approach, involving all Town departments to delivering value to the community through the effective management of existing and new infrastructure assets. The intent is to maximize benefits, reduce risk and provide satisfactory levels of service to the community in a sustainable manner. Good asset management practices are fundamental to achieving sustainable and resilient communities. The policy outlines the fundamental asset management principles to be implemented across the Town of Cobourg.

To guide the organization, the following policy statements have been developed.

Policy

- a) The Town will develop an asset management plan (AMP) that aligns with the Town's Tangible Capital Asset Policy.
- b) The Town shall maintain and manage infrastructure assets at defined levels to support public safety, community well-being, and community goals.
- c) The Town shall adopt a sustainable approach to asset management, ensuring that the asset base is not increased without considering the impact on the ability of the Town to fund future maintenance and rehabilitation/replacement.
- d) The Town shall establish infrastructure replacement strategies through the use of full life cycle costing principles.
- e) The Town shall establish and monitor standards and service levels to ensure that they meet/support community and Council goals and objectives.
- f) The Town shall budget for the appropriate level of maintenance of assets to deliver appropriate service levels and extend the useful life of assets.
- g) The Town will plan for and provide stable long term funding to replace and/or renew and/or decommission infrastructure assets.
- h) The Town will prioritize and direct resources and expenditures in order to deliver levels of service and other community benefits at an acceptable level of risk.

Roles and Responsibilities

The policy requires the commitment of key stakeholders within the Town's organization to ensure that the policy contains a clear plan that can be implemented, reviewed and updated.

The following details the responsibilities of the key stakeholders within the Town:

i. Council

- a. Exercise stewardship of assets, adopt policy and financial plans.
- b. Maintain adequate organizational capacity to support the core practices of the asset management program.
- c. Monitor and adjust levels of service.
- d. On-going review of policies at required intervals.

ii. Chief Administrative Officer

- a. Provide leadership to set the direction and priorities for development of the asset management plan across the municipality.
- b. Ensure that adequate resources are available to implement and maintain core asset management practices.
- c. Maintain compliance with the asset management policy and provincial asset management regulations.

iii. Executive Lead (Treasurer)

- a. Oversee the on-going maintenance of the asset management plan every 5 years.
- b. Develop and maintain budgets for the appropriate level of maintenance, rehabilitation, extension and decommission of assets.
- c. Annual financial reporting.

iv. Senior Management

- a. Develop policy and asset management program.
- b. Oversee asset management planning and implementation activities that fall within their service area.
- c. Establish and monitor levels of service.
- d. Provide departmental staff coordination.
- e. Track and report on asset management program progress and results.

v. Departmental Staff

- a. Implement and maintain levels of service.
- b. Utilize technology tools developed as part of the asset management program.
- c. Conduct condition assessments in accordance with the asset management plan.
- d. Monitor and update infrastructure lifecycle and costing.
- e. Maintain asset inventories.

Guiding Principles

In order to achieve the asset management objectives, the following principles will be applied whenever possible to all aspects of the asset management program in accordance with the Infrastructure for Jobs and Prosperity Act, 2015:

Forward looking: The Town shall take a long-term view while considering demographic and economic trends in the area.

Budgeting and planning: The Town shall take into account any applicable budgets or fiscal plans, including those adopted through Ontario legislation.

Prioritizing: The Town shall clearly identify infrastructure priorities which will drive investment decisions.

Economic development: The Town shall promote economic competitiveness, productivity, job creation, and training opportunities.

Transparency: The Town shall be evidence-based and transparent basing infrastructure decisions on information that is, or is made, publicly available. Implications on infrastructure should be factored into investment decisions and shared with the public.

Consistency: The Town shall ensure the continued provision of core public services.

Environmentally conscious: The Town shall minimize the impact of infrastructure on the environment by respecting and helping maintain ecological and biological diversity, and infrastructure should be designed to be resilient to the effects of climate change.

Health and safety: The Town shall ensure that the health and safety of workers involved in the construction and maintenance of infrastructure assets is protected.

Community focused: The Town shall promote community benefits, being the supplementary social and economic benefits arising from an infrastructure project that are intended to improve the well-being of a community affected by the project, such as local job creation and training opportunities, improvement of public spaces within the community, and promoting accessibility for persons with disabilities.

Innovation: The Town shall create opportunities to make use of innovative technologies, services and practices, particularly where doing so would utilize technology, techniques, and practices developed in Ontario.

Integration: The Town shall be mindful and consider the principles and content of non-binding provincial or municipal plans and strategies established under an Act or otherwise, in planning and making decisions surrounding the infrastructure that supports them, to the extent that they are relevant.

Definitions

“Asset management plan” is a document that states the process of making the best possible long term decisions regarding the building, operating, maintaining, renewing, replacing and disposing of infrastructure assets. The objective is to maximize benefits, manage risk, and provide satisfactory levels of service to the public in a financially sustainable manner.

“**Capital asset**” is anything that has potential or actual value to an organization.

“**Capitalization threshold**” is the value of a municipal infrastructure asset at or above which a municipality will capitalize the value of the asset (approved in the capital budget), and below which it will expense the value of the asset (approved in the operating budget).

“**Life cycle**” is the time interval that starts with the identification of the need for an asset and ends with the disposal of the asset.

“**Life cycle costs**” are all the costs which are incurred during the lifecycle of a capital asset, from the time it is purchased or constructed, to the time it is taken out of service for disposal. This may include but is not limited to capital costs, operating costs, maintenance costs, renewal costs, replacement costs, etc.

“**Levels of Service**” is a system to define (qualify) and measure (quantify) a Municipality's commitment to deliver service at a specified level of quality and reliability.

“**Sustainable**” in the context of asset management is about meeting the needs of the future by balancing social, economic, cultural and environmental outcomes or needs when making decisions today.

Administration

The Chief Administrative Officer hereby designates the Public Works Department to implement and administer this policy and any related procedures.
