

# THIS IS COBOURG

## Environmental Services Department

### National Win

# 1st

facility in Canada to replace chlorine with ozone to disinfect wastewater effluent.

### Financial

Plant #1 has had over **\$15M** in upgrades... with the assistance of federal and provincial grants in the amount of **\$5M**

### Leadership

### Fleming College

Provide Fleming College Co-Op students opportunities to work with the Town.

We hired our most recent intern.

### Partnerships

We partner with NRG Curtailment Solutions to help alleviate large demand on the grid system.

**nrg**

If called upon we receive

approx. **\$25K**/year

### Energy Savings

Plant #1 converted from Surface Aerators to Diffused Air and saved the facility

**\$100K**/year

### Education

Our Manager of Environmental Services teaches the 'Wastewater Component' of a technical course at Fleming College.

### Campaign Leader

We are working hard leading a national campaign for revising packaging legislation on flushable wipes.

Did you know these wipes cost Canadian municipalities over

**\$250M**/year?

Each month we will be celebrating our successes and we want to thank you for helping us get there!
