6.

7.

8.

You will need:
- different coloured nail polish, including white
- small cup
- water (room temperature)
- nail polish remover
- cotton swabs
- toothpicks
- cotton pads or tissue
- scissors
- tape

Steps:
1. Paint nails with white base coat, let dry. Tape around nails.
2. Drip coloured polish into cup of water.
3. Drip a different colour in the centre of the first colour. Repeat until bullseye is formed.
4. Insert tip of toothpick into centre of bullseye and drag colours to the edge of the cup. Drag toothpick through polish until desired design is achieved.
5. Dip finger nail, upside down, into marble design.
6. While nail is still submerged, use a cotton swab to remove excess polish from water surface surrounding the finger.
7. Remove finger from water. Repeat steps 2 - 6 for each nail.
8. Cut tape from fingers. Use nail polish remover to remove polish from skin.
9. Apply top coat when completely dry (optional).
