

Teen DIY Holiday Book Tree Folding

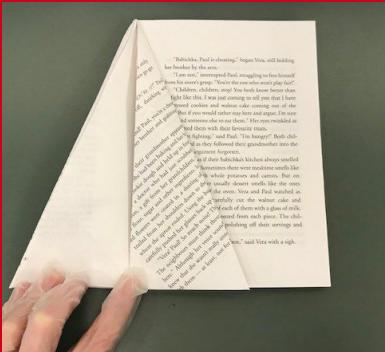

Supplies Needed: 1 worn out paperback book and a variety of decorating materials of your choice (if desired)

Step 1: Remove the cover from the front and back of the book. With your first page, fold the top right corner towards the book spine to form a triangle as shown.

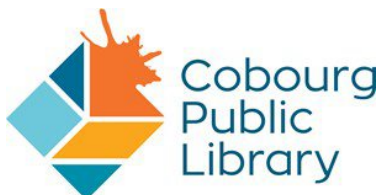

Step 2: Using the same page, fold the point of first triangle towards the spine of the book as shown.

Step 3: Tuck under the piece of the page that is hanging over the bottom of the book. Your page should line up with the bottom of the other pages as shown.

Step 4: Fold the remaining pages using the same process in steps 1-3. When you have completed folding all of the pages, your holiday book tree is complete. You can leave it as it is or add decorations. Some suggestions materials include glitter, pom poms or tinsel in holiday colours. Display and enjoy!
