

# DIY Yarn Trees

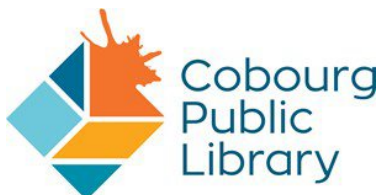

Using a paper cone and your choice of yarn, create a holiday scene to be enjoyed year after year.

Materials needed - yarn, scissors, cone (or make your own) glue stick & bristol board or cardstock paper

## Instructions:

1. To make your cone cut out a circle and then cut it in half. Shape one of the halves to make a cone and glue.
2. Starting at the bottom of the cone, start to glue the yarn to the cone. Continue to wrap the yarn around the cone, gluing as you go, until you reach the top.
3. Repeat step 2, you might need to repeat step 2 a third time.
4. Try making a different size tree next.
