

Kids In The Kitchen

Fall Turkey Snack

Supplies Needed: one pear, bell peppers in two different colours, one small carrot, premade edible decorative eyes (feel free to substitute chocolate chips or raisins), child-friendly knife and plate

Steps:

1. Gather needed supplies. Wash the pear, bell peppers and carrot.
2. Using the child-friendly knife, cut the pear down the centre. Be sure to remove the core and stem. This will provide you with two turkey bodies.
3. Begin cutting up the bell peppers. Remember to remove the core, seeds and stem. The wider you slice the peppers, the larger the turkey's feathers will be.
4. Peel one small carrot. Using the child-friendly knife, two out two legs and a beak for your turkey.
5. On your plate, start by arranging the bell pepper slices in a pattern for the turkey's feathers. Next, lay the pear half on top. Slide your two carrot legs in at the bottom. Add your two eyes and one beak.
6. Tidy your work space and enjoy your turkey-riffic snack!
