Duct Tape Wallet

Materials Needed: paper, two different kinds of duct tape, scissors, and a ruler

Steps:

1. Gather the materials needed. Measure and cut out a 5" wide by 7" long piece of paper.

2. Make a fold 2" wide towards the centre of the white paper. This will become your money pocket on the inside of your wallet. With the fold side facing up, take your first colour of duct tape, cut a piece 7.5" long. Stick this piece of duct tape towards the top of the money pocket fold. Leave a small lip to fold over to make a finished edge.

Inside of Wallet

3. Take a second 7.5" long piece of duct tape in the same colour and finish covering the money pocket fold. There should be a small lip on the bottom to fold over onto the outside of the wallet. Trim the side edges using scissors, so the duct tape is flush with the paper.

4. Turn your paper over to the outside of the wallet. Cut another 7.5" piece of duct tape in the same colour. Stick it to the top of the outside of your wallet. Leave a small lip to fold over towards the inside of the wallet.

Outside of Wallet

5. Take your second colour of duct tape and cut a 7.5 inch piece. Place it below your first piece of duct tape on the outside of the wallet. Trim your edges of your duct tape to make them flush with the paper.

Outside of Wallet

6. If you wish to add the second colour to the inside of your wallet, cut another 7.5" piece, hold back your money pocket flap and stick the duct tape it on the interior. Trim your edges using scissors.

7. Using your first duct tape colour, Trim two 3.5" pieces to finish the side edges of the wallet and to permanently adhere the money pocket. Trim your edges.

8. Fold your wallet and enjoy!
