

Summer Painting For KIDS!

You will need:

- Lemon, limes or oranges cut in half
- paper plate
- red, blue, and yellow washable paint
- white paper

Pour each of the colours on to a paper plate. Gently shake the plate to even out the paint. Place a piece of fruit, flat side down into one of the paint colours and then press it on to white paper.

Repeat with two new halves in the other colours.

Continue printing with the fruit to create a pattern on the paper!

For more fun try:

Cutting the fruit into quarters creating different shapes.

Mix colors together to create more colours.
