7	The Cobourg Yacht Club (CYC) celebrated its 50th anniversary in 2015. CYC is a volunteer organization with over 400 members whose main goal is to promote the safe enjoyment of boating in and around Cobourg. CYC offers nationally-certified youth and adult "learn to sail" programs, promotes safe boating for both power and sailing vessels, organizes dinghy and keelboat racing, hosts visitors from other yacht clubs who use the harbour's facilities, and brings together Cobourg residents and guests in a wide variety of dining and social activities throughout the year. CYC's members constitute a key critical mass of customers for the Cobourg Marina. CYC collaborates actively with Marina staff, the Coast Guard, first responders, other Cobourg organizations, and town officials on any activities or matters having to do with safe boating and use of the harbour environment. Cobourg Yacht Club was here fifty years ago, when the Department of Fisheries and Oceans offered us a 99- year lease to give up the centre dock. Fifty years from now our objective is to be here still, in one form or another.	6/21/2017 9:01 AM

CYC's members constitute a key critical mass of customers for the Cobourg Marina. CYC collaborates actively with Marina staff, the Coast Guard, first responders, other Cobourg organizations, and city officials on any activities or matters having to do with safe boating and use of the harbour environment. 1	This menu does not allow checking more than one option. We would be happy to fundraise in partnership with other organizations and provide services in kind; we already do pay rent for both a marina slip and for boat storage, so do not feel we should pay any more since we are already paying for services.	6/27/2017 10:01 AM

ANSWER CHOICES	RESPONSES
Minor improvements are required to restore/upgrade existing infrastructure and make it more usable (e.g., more shade structures, services in Victoria Park to support special events, additional wash/changerooms, improved signage, etc.)	61.54% 8
Major improvements are required to enhance connections and functioning of spaces along the waterfront and between the waterfront and downtown (e.g., redevelopment of east pier as a focal point for the waterfront, access to lighthouse and breakwater, connecting north-south pathways, cycling lanes, providing/enhancing north-south vistas/viewsheds, accommodating various uses of the harbour).	30.77% 4
No improvement/additions to waterfront infrastructure are required but the Town needs to deal with issues around levels of use (e.g., crowds, parking, garbage, noise, by-law enforcement, etc.)	0.00% 0
Other than basic repairs and regular maintenance to existing infrastructure, no improvements to the waterfront are required.	7.69% 1

Q24 Victoria Park Campground/Cobourg Trailer Park: Statement of Facts Victoria Park Campground is a 3.8 acre parcel of property located at 138 Division St. The park is bordered by Division St. to the east, Victoria Park Beach to the south, Victoria Park to the west, and mixed use residential and commercial development and Centennial Pool to the north. The park consists of 71 serviced R/V sites and 5 unserviced tent sites. There is an on-site sanitary disposal station. In 2016 the campground generated in excess of \$279,000 in revenues and payed out over \$107,000 in expenditures. The majority of expenditures are paid to local individuals and businesses. This means the campground generated a surplus in excess of \$172,000, of which \$20,000 was transferred to a reserve fund for future capital expenses for the campground and \$152,000 was used to help offset general tax levies. Please indicate your level of agreement with each of the following statements on a scale of 1 to 3, with 1 meaning 'disagree', 2 meaning 'neither agree nor disagree', and 3 meaning 'agree.' Q25 Cobourg Marina: Statement of Facts Cobourg Marina is located at 103 Third St. The marina consists of a 4,500 sq. ft. administration building with washroom and shower facilities. The 218 boat slips occupy the northeast section of the harbour. The harbour is bordered by approximately 2,190 linear ft. of seawall, 1,240 linear ft. of breakwater and a 650 ft. west headland. Additional marina facilities include a single lane boat launch ramp, 185 ft. fuel dock with gasoline and diesel fuel storage and dispensing facilities as well as a sanitary pumpout station. The two underground fuel storage tanks have a combined storage capacity of 25,000 litres. Boat storage is located in a secure 1.12 acre compound at the south end of Hibernia St. and can accommodate 65 to 70 boats. The marina currently occupies approximately 27% of the total harbour area. In 2016 the marina generated in excess of \$676,000 in revenues and payed more than \$631,000 in expenditures. The expenditures included harbour maintenance costs that were not related to marina operations. The majority of these expenditures are paid to local individuals and businesses. This means the marina generated a surplus of more than \$45,000, which was deposited into a marina reserve fund. These funds are used to fund capital expenses relating to the marina as well as the harbour. Cobourg harbour is strategically located for both tourism and utilitarian purposes. Tourism benefits from short or long stays by visitors who take advantage of proximity to the downtown core and its services. From a utilitarian perspective, it provides the only harbour of safe refuge between Whitby and Presquile Bay, a distance of 60 nautical miles, and was selected to support a permanent coast guard station. Regardless of marina responsibilities, a minimum level of service would still be required to provide this emergency function. Please indicate your level of agreement with each of the following statements on a scale of 1 to 3, with 1 meaning 'disagree', 2 meaning 'neither agree nor disagree', and 3 meaning 'agree.' 1	It is important to develop the basin/marina area for all users, not just large boats. This means welcoming passive boaters (dragon boats, canoes, kayaks, Stand-up paddler boards, small sailboats, etc.) We would support the marina expanding its services to large boats within its present footprint to the east of the Centre pier. WE DO NOT support any development of slips to the west of the Centre pier. This incursion would end in the collapse of our club, since there would be not enough safe space to train in. 4	We should keep it as natural as possible and stop trying to attract tourists to overcrowd it so residents can't enjoy it. Just maintain the park and improve the trees and gardens. We at the horticultural Society maintain the Rose Garden in V. Park and the garden at the Five Corners. We would like to see spring bulbs, flowering shrubs, and a perennial garden in Victoria park to attract butterflies and bees. Also Parks staff need to be trained to prune shrubs properly.	6/9/2017 7:54 PM
