# Supporting the Cobourg Public Library

## Mission and Goals

The Mission of the Cobourg Public Library is that the organization is committed to being an exceptional community resource for information, exploration, inspiration, and enjoyment.

To achieve this mission, we have created a number of goals. These goals include:

### Providing a Community Space

This includes welcoming, accessible indoor and outdoor spaces, developing an outdoor community garden, and showcasing our collections in their best light.

### Providing Community Services

This includes providing a collection which sustains the diversity of resource needs to include print, e-resources, accessible formats, and technology. Educating and enriching the community with providing programming for all ages, including inter-generational programming as well as age specific programs.

**Seeking Community Collaboration**  
Striving to create partnerships within the community to engage the community, and enhance Library services and programs. In this goal we would like to expand our mobile service to the community.

## What We Do

The Cobourg Public Library provides not only educational and informational services and materials. We also offer a welcoming community gathering place.

We provide programs for all ages, public computers and access to wifi, as well as a place to meet, gather, and enjoy.

## Why We Do This

We provide a place where *all* members of the community feel welcome, and can participate in any program or service at no-cost. We are one of the very few places left where you do not have to pay to participate, and the only limit on the amount of time that patrons can spend at the Library is the hours we are open.
